SUMMARY

- Senior Software Engineer with 6 years of experience in various industries, including IT services, consulting companies, startups, and banking.
- Main technologies include React, JavaScript, Next.js and TypeScript.
- Currently serving as a Senior Front-end Engineer at SONDA, allocated to Banco do Nordeste, specialized in Design System and developing scalable components.
- Usually described by co-workers as a proactive collaborator with excellent communication skills, a quick learner with strong attention to detail, and results-oriented.
- Notable achievements include improving unit test coverage to 90%, which reduced production bugs by 45%, resulting in a more robust and reliable codebase.

SKILLS

- **Proficient:** HTML, CSS, JavaScript, React, TypeScript, Next.js, Git, GitHub, Tailwind CSS, Storybook, Design Systems, Scrum, Kanban, UI/UX.
- **Intermediate:** Redux Toolkit, Web Accessibility, Jest, React Testing Library.
- **Beginner:** Node.js, MongoDB, Express, MobX.

WORK EXPERIENCE

SONDA IT (Fortaleza, CE – Brazil, Hybrid)

Via SONDA (Santiago, Chile), an outsourcing company, working allocated to the client, Banco do Nordeste (Brazil), the largest regional development bank in Latin America

Senior Software Engineer | Front-end (08/2023 – Present)

- Enhanced to 90% unit test coverage and reduced by 45% production bugs by implementing automated testing with Jest and React Testing Library
- Created the BNB Design System component library with Vite using React.js and TypeScript, for reuse by 20+ internal teams.
- Improved UI component documentation and testing by using Storybook to present and test components in isolation.

Software Engineer | Front-end (05/2023 – 08/2023)

- Increased by 65% user engagement and a reduced 40% support queries by building a collaborative documentation platform with a static website using React components.

NANO INCUB (São Paulo, SP – Brazil, Remote)

Software Engineer | Front-end (08/2022 - 05/2023)

A startup in IT Services and IT Consulting that develops platforms and applications for companies, creating value for its clients' businesses

- Decreased by 70% code duplication across projects by implementing reusable components.

- Supported 28k+ user employees from the nation's leading mills by engineering and upholding a business platform with 30+ custom modules.
- Lowered by 25% bug reports through participation in code reviews, while sharing knowledge and mentoring team members.
- Completed 5+ projects using React.js and React Native, managing large volumes of data.

CVFY (Northampton, England, Remote)

Software Engineer / Front-end (04/2022 - 08/2022)

The contracting partners envisioned the CVFY mobile app, a job search platform that uses AI to assist employers and job seekers

- Diminished by 40% app crash rates through effective implementation of TypeScript.
- Streamlined by 60% feedback processes by delivering UI components with 100% adherence to UX guidelines.
- Reduced by 25% merge conflicts by executing version control with Git & GitHub, handling feature branches, pull requests, and conflict resolutions.
- Contributed to the creation of 2 projects: a mobile app focused on user experience and clean design, using React Native CLI and TypeScript.

NB CONSULTING IT (São Paulo, SP - Brazil, Remote)

Software Developer / Front-end (01/2021 - 03/2022)

A small startup that delivers digital solutions and Technology & Innovation consulting

- Accelerated by 35% development time and ensured consistent implementation of UX guidelines across projects by creating and maintaining 30+ reusable components.
- Boosted by 25% user satisfaction scores and improved task completion rates by 15% by partnering with cross-functional teams to implement UI/UX enhancements.
- Developed server-side rendered websites and mobile applications with React.js, Next.js, Redux Toolkit, and React Native for 3 clients in different industries.

ADVANCE ADVERTISING AGENCY (Fortaleza, CE - Brazil, On-site)

Junior Software Developer / Graphic Designer (10/2017 - 12/2020)

Full-Service Agency, focusing in Digital Marketing, Advertising, and Publicity

- Improved by 25% responsiveness and visual appeal of web pages through building user interfaces with HTML and styling them with CSS.
- Increased by 30% user engagement by creating visually compelling graphics for social media campaigns, using Adobe Photoshop and Illustrator.

EDUCATION

- **Bachelor in Advertising and Marketing** (2008)
 - University of Fortaleza (Brazil)
